EPBC 2013/6986 Annual Compliance Report 2021

1 October 2021

61199 – 140717 (Rev 0)

JBS&G Australia Pty Ltd T/A Strategen-JBS&G

Declaration of accuracy

In making this declaration, I am aware that sections 490 and 491 of the *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) make it an offence in certain circumstances to knowingly provide false or misleading information or documents. The offence is punishable on conviction by imprisonment or a fine, or both. I declare that all the information and documentation supporting this compliance report is true and correct in every particular. I am authorised to bind the approval holder to this declaration and that I have no knowledge of that authorisation being revoked at the time of making this declaration.

Appendix A EPBC Act Approval 2013/9686

1. Introduction

This report addresses the status and compliance of The Village at Wellard development with the conditions in the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) Approval 2013/6986 (EPBC 2013/6986). This report has been prepared for the purpose of meeting the requirements of condition 6 of this approval, which is to submit annual compliance reports (ACR) within three months of every 12-month anniversary of the commencement of the action for publication on the Proponent's website.

1.1 Project background

The Village at Wellard development (the Project) is a joint venture between Peet Limited and the Housing Authority, progressed under the auspices of 'Peet Southern JV Pty Limited' (Peet).

Development of the Project has been underway since 2003. Development from Stage 32 onwards will accommodate additional residential housing and Public Open Space (POS) as part of the completion of the Village at Wellard community.

1.2 Environmental approval to implement the project

Stage 32 onwards was referred to the Department of the Environment (DotE; now the Department of Agriculture, Water and the Environment [DAWE]) for assessment under the EPBC Act in July 2013. Approval to implement the action was received from the Minister on 27 June 2014 (EPBC 2013/6986). The action commenced on 10 July 2014 with clearing of vegetation within Stage 33 and 34.

The proposed action is defined as follows:

To clear native vegetation and construct a residential development on Lots 9035 and 9037, Wellard, Western Australia [see EPBC Act referral 2013/6986].

'A variation was submitted to DAWE to extend the period of effect of EPBC 2013/6986. The variation was approved on 16 July 2020 with the new expiration date of 31 July 2025'

1.3 Current status

Clearing and earthworks for stages 27, 37b, 38 and 40 was undertaken during the reporting period (10 July 2020 to 9 July 2021) commencing on 27 July 2020. The total area of clearing during the reporting period amounted to 1.53 hectares (ha). Stage 44 has commenced however will require no clearing as the area has been cleared previously.

2. Audit Methodology

2.1 Audit plan

2.1.1 Purpose and scope

This document has been prepared for Peet (the approval holder) to fulfil the requirements of condition 6 of EPBC 2013/6986, which was issued to enable implementation of the Residential Development of The Village of Wellard, Western Australia. Condition 6 requires the proponent to submit an ACR for the previous twelve-month period.

This ACR addresses the twelve-month period from 10 July 2020 to 9 July 2021.

2.1.2 Methodology

The assessment was undertaken as a desktop assessment between July -September 2021 with consultation undertaken with appropriate personnel (Table 2.1) and accompanied by review of a variety of documents used to assess and verify compliance.

Table 2.1: Persons consulted during the audit

Person and position	Organisation	Purpose
Carli O'Brien, Senior Consultant	Strategen-JBS&G	To obtain verifiable evidence to assist in determining compliance with EPBC 2013/6986
Olivia Hammond, Development Manager	Peet	To obtain verifiable evidence to assist in determining compliance with EPBC 2013/6986
Jack Wagner, Assistant Development Manager	Peet	To obtain verifiable evidence to assist in determining compliance with EPBC 2013/6986
Clay Thomas, Project Director	Peet	To obtain verifiable evidence to assist in determining compliance with EPBC 2013/6986

2.2 Audit terminology

The "Status" field of the audit tables (refer to Section 3) describes the implementation of actions and compliance with approval. Terminology from the Annual Compliance Report Guidelines (DotE 2014) was applied in this audit (Table 2.2).

Table 2.2: Action implementation status

Status	Acronym	Description
Conditions of approval		
Compliant	C	All the conditions of a requirement have been met, including the implementation of management plans or other measures required by those conditions.
Potentially non-compliant	NC	The requirements of a condition or elements of a condition, including the implementation of management plans and other measures, may not have been met.
Not applicable	N/A	The requirements of a condition or elements of a condition fall outside of the scope of the current reporting period. For example, a condition which applies to an activity that has not yet commenced

Source: adapted from DotE (2014)

2.3 Audit evidence

Documentary evidence used to verify compliance with audit items is referenced within Table 3.1 as a unique code. Documentary evidence has been retained in electronic and/or hard copy format by the auditors. If any items have been determined to be potentially non-compliant, any available associated evidence is attached as an appendix to this report.

3. Audit Results

3.1 Compliance with conditions

The results of the audit of EPBC 2013/6986 are shown below in Table 3.1. There are eight conditions of EPBC 2013/6986, divided into 21 sub-conditions.

Ten sub-conditions were assessed to be “Compliant”, of which four sub-conditions were assessed as Compliant (completed). Eleven sub-conditions were assessed to be “Not applicable”.

3.2 Potential non-compliances

No potential non-compliances were identified.

Table 3.1: EPBC 2013/6986

Condition No. / reference	Condition	Timing	Status	Evidence	Comments
1.1	The approval holder must not clear more than 50.3 hectares of Carnaby's Black-Cockatoo and Forest Red-tailed Black-Cockatoo foraging and potential breeding habitat within the project area identified as the 'Site Boundary' at Attachment A.	Ongoing	Compliant	R01 - Wellard 2020 ACR (Rev 0) G02 - Pre Clearing G03 - Post Clearing	It was confirmed during the 2016 auditing period the area of the approved action is 58.5 ha in total (R01). This area includes 8.34 ha of already cleared areas leaving a remainder of 50.16 ha of habitat, which is less than the 50.3 ha approved to be cleared i.e. within the project boundary the approval holder cannot clear more habitat than that allowed by the approval. Clearing occurred this reporting period in stages 37B, 38 and 40. The total area cleared during the 2020-21 reporting period was 1.53 hectares. Clearing was conducted on: <ul style="list-style-type: none"> • 27 July 2020 • 29 September 2020 • 1 – 2 October 2020 • 5 October 2020 • 4 December 2020
2.1	To offset the loss of Carnaby's Black-Cockatoo and Forest Red-tailed Black-Cockatoo foraging habitat and potential breeding habitat , within three (3) months from the date of this approval, the approval holder must provide the Department with written evidence that funds have been provided to the DPAW for the acquisition and management of two (2) environmental offset properties that must be: no less than 290 hectares in size at Lot 190 Clackline-Toodyay Road, Clackline, Western Australia; no less than 37 hectares in size at Lot 1143, Wye Road, Nannup, Western Australia.	By 27 September 2014	Compliant (completed)	R01 - Wellard 2020 ACR (Rev 0)	Condition has been met and assessed as Compliant (completed) during previous audit period (R01).
2.2	The written evidence must include a description and map clearly defining the location and boundaries of the offset properties and be accompanied with the offset attributes and a shapefile .	By 27 September 2014	Compliant (completed)	R01 - Wellard 2020 ACR (Rev 0)	Condition has been met and assessed as Compliant (completed) during previous audit period (R01).
3.1	To avoid and mitigate impacts to the Carnaby's Black-Cockatoo and the Forest Red-tailed Black-Cockatoo during the breeding season (July – November), within 7 days prior to clearing , the approval holder must investigate potential breeding trees within the project area to detect the presence of Carnaby's Black-Cockatoos or Forest Red-tailed Black-Cockatoos using hollows.	Within 7 days prior to clearing commencing	Compliant	R02 - 20060 Strategen Wellard Fauna Clearance v2 C03 - 27 July Clearing at Peet's Wellard Village development	Clearing was undertaken on 27 July 2020 with fauna spotting and hollow inspections undertaken by a team of two Biologic Zoologists on the morning that clearing commenced. Email correspondence from Biological confirmed that there were no hollows found in any of the trees within the clearing footprint. (C03) Further earthworks were conducted 29 September 1 – 2 October, 5 October. Large trees of appropriate species and diameter breast height (300 – 500 mm according to tree species) within the Study Area were investigated for the presence of potential breeding hollows for black cockatoo and other arboreal species. Large trees of appropriate species and diameter breast height (300 – 500 mm according to tree species; DSEWPaC, 2012), within the Study Area were investigated for the presence of potential breeding hollows for black cockatoo and other arboreal species (e.g. possums, other avian species). Large trees to be cleared were bumped or shaken with an excavator and observed to assess whether fauna (in particular black cockatoos) were present to allow them to move away. No hollows, nests (including rainbow bee-eater ground nests), or dens were observed within the clearance boundary that required relocation of fauna.
3.2	The investigation must be undertaken by a suitably qualified and experienced person .	Prior to clearing commencing	Not applicable	Refer to EPBC 3.1.	Refer to EPBC 3.1.
3.3	If a Carnaby's Black-Cockatoo or a Forest Red-tailed Black-Cockatoo is detected using a hollow in a tree or trees, the approval holder must: clearly identify the tree or trees with fencing and signage;	Upon detection of tree hollow use - prior to clearing commencing	Not applicable	Refer to EPBC 3.1.	Refer to EPBC 3.1.
3.4	If a Carnaby's Black-Cockatoo or a Forest Red-tailed Black-Cockatoo is detected using a hollow in a tree or trees, the approval holder must: not clear the tree or trees; and	Following detection of tree hollow use prior to clearing commencing	Not applicable	Refer to EPBC 3.1.	Refer to EPBC 3.1.

Condition No. / reference	Condition	Timing	Status	Evidence	Comments
3.5	If a Carnaby's Black-Cockatoo or a Forest Red-tailed Black-Cockatoo is detected using a hollow in a tree or trees, the approval holder must: undertake measures to avoid the tree or trees from being cut down, felled, removed, killed, destroyed, poisoned, ring-barked, uprooted or burned until the hollow/s are no longer being used by the Carnaby's Black-Cockatoo or the Forest Red-tailed Black-Cockatoo as determined by a suitably qualified and experienced person.	As informed by fauna specialist	Not applicable	Refer to EPBC 3.1.	Refer to EPBC 3.1.
4.1	Within 30 days after the commencement of the action, the approval holder must advise the Department in writing of the actual date of commencement .	Within 30 days after commencement	Compliant (completed)	R01 - Wellard 2020 ACR (Rev 0)	Condition has been met and assessed as Compliant (completed) during previous audit period (R01).
5.1	The approval holder must maintain accurate records substantiating all activities associated with or relevant to the conditions of approval, and make them available upon request to the Department .	As required (DAWE decision)	Compliant	C02 - Wellard ACR Evidence Request rev 0	Peet has provided the auditors with records substantiating all activities associated with or relevant to the conditions of approval for all applicable conditions. The auditors are not aware of any request for records from the Department (C02).
5.2	Such records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the EPBC Act, or used to verify compliance with the conditions of approval.	As required (DAWE decision)	Not applicable	C02 - Wellard ACR Evidence Request rev 0	Refer to audit item 5.1
5.3	Summaries of audits will be posted on the Department's website. The results of audits may also be publicised through the general media.	As required (DAWE decision)	Not applicable	C02 - Wellard ACR Evidence Request rev 0	This part of the condition is taken as a note. Refer to audit item 5.1 and audit item 5.2
6.1	Within three months of every 12 month anniversary of the commencement of the action, the approval holder must publish a report on their website addressing compliance with each of the conditions of this approval over the previous 12 months.	Before 10 October each year	Compliant	C02 - Wellard ACR Evidence Request rev 0	The action commenced on the 10 July 2014, thus compliance reports are required to be published by 10 October. The ACR was published on 20 August 2020 and provided to the DAWE on the same date (C01).
6.2	Documentary evidence providing proof of the date of publication must be provided to the Department at the same time as the compliance report is published.	Before 10 October each year	Compliant	Refer to audit item 6.1	Refer to audit item 6.1
6.3	The compliance reports must remain on the website for 12 months from the date of publishing.	For 12 months from the date of publishing	Compliant	G01 - Wellard EPBC 2013 6986 ACR 29072020	The 2020 Annual Compliance Report remains on the Village at Wellard website (G01) via the following link: https://www.peet.com.au/-/media/peet/documents/wa/wellard/59017131713-r001-wellard-2020-acr-rev-0.ashx
6.4	Potential or actual contraventions of the conditions of the approval must be reported to the Department in writing within 2 business days of the approval holder becoming aware of the actual or potential contravention.	Within 2 business days of being aware of NC/PNC	Not applicable		The auditors are unaware of any potential or actual non-compliance to date.
6.5	All contraventions must also be included in the compliance reports.	As required	Not applicable	R01 - Wellard 2020 ACR (Rev 0)	No potential non-compliances were reported in the 2020 compliance report (R01).
7.1	Upon the direction of the Minister , the approval holder must ensure that an independent audit of compliance with the conditions of approval is conducted and a report submitted to the Minister .	As required (Minister's direction)	Not applicable	C02 - Wellard ACR Evidence Request rev 0	Peet advised that the Minister has not requested an independent audit of compliance be undertaken of the Project during this reporting period.
7.2	The independent auditor must be approved by the Minister prior to the commencement of the audit.	As required (Minister's direction)	Not applicable	Refer to audit item 7.1	Refer to audit item 7.1
7.3	Audit criteria must be agreed to by the Minister and the audit report must address the criteria to the satisfaction of the Minister .	As required (Minister's direction)	Not applicable	Refer to audit item 7.1	Refer to audit item 7.1
8.1	If, at any time after five (5) years from the date of this approval, the approval holder has not commenced the action, then the approval holder must not commence the action without the written agreement of the Minister .	By 27 June 2019	Compliant (completed)	R01 - Wellard 2020 ACR (Rev 0)	Condition has been met and assessed as Compliant (completed) during previous audit period (R01).

4. Limitations

Scope of services

This report (“the report”) has been prepared by Strategen-JBS&G in accordance with the scope of services set out in the contract, or as otherwise agreed, between the Client and Strategen-JBS&G. In some circumstances, a range of factors such as time, budget, access and/or site disturbance constraints may have limited the scope of services. This report is strictly limited to the matters stated in it and is not to be read as extending, by implication, to any other matter in connection with the matters addressed in it.

Reliance on data

In preparing the report, Strategen-JBS&G has relied upon data and other information provided by the Client and other individuals and organisations, most of which are referred to in the report (“the data”). Except as otherwise expressly stated in the report, Strategen-JBS&G has not verified the accuracy or completeness of the data. To the extent that the statements, opinions, facts, information, conclusions and/or recommendations in the report (“conclusions”) are based in whole or part on the data, those conclusions are contingent upon the accuracy and completeness of the data. Strategen-JBS&G has also not attempted to determine whether any material matter has been omitted from the data. Strategen-JBS&G will not be liable in relation to incorrect conclusions should any data, information or condition be incorrect or have been concealed, withheld, misrepresented or otherwise not fully disclosed to Strategen-JBS&G. The making of any assumption does not imply that Strategen-JBS&G has made any enquiry to verify the correctness of that assumption.

The report is based on conditions encountered and information received at the time of preparation of this report or the time that site investigations were carried out. Strategen-JBS&G disclaims responsibility for any changes that may have occurred after this time. This report and any legal issues arising from it are governed by and construed in accordance with the law of Western Australia as at the date of this report.

Environmental conclusions

Within the limitations imposed by the scope of services, the preparation of this report has been undertaken and performed in a professional manner, in accordance with generally accepted environmental consulting practices. No other warranty, whether express or implied, is made.

The advice herein relates only to this project and all results conclusions and recommendations made should be reviewed by a competent person with experience in environmental investigations, before being used for any other purpose.

Strategen-JBS&G accepts no liability for use or interpretation by any person or body other than the client who commissioned the works. This report should not be reproduced without prior approval by the client, or amended in any way without prior approval by Strategen-JBS&G, and should not be relied upon by other parties, who should make their own enquiries.

Conditions attached to the approval

1. The **approval holder** must not **clear** more than 50.3 hectares of **Carnaby's Black-Cockatoo** and **Forest Red-tailed Black-Cockatoo foraging and potential breeding habitat** within the **project area** identified as the 'Site Boundary' at Attachment A.
2. To offset the loss of **Carnaby's Black-Cockatoo** and **Forest Red-tailed Black-Cockatoo foraging habitat and potential breeding habitat**, within three (3) months from the date of this approval, the **approval holder** must provide the **Department** with written evidence that funds have been provided to the **DPAW** for the acquisition and management of two (2) environmental **offset properties** that must be:
 - i. no less than 290 hectares in size at Lot 190 Clackline-Toodyay Road, Clackline, Western Australia; and
 - ii. no less than 37 hectares in size at Lot 1143, Wye Road, Nannup, Western Australia.

The written evidence must include a description and map clearly defining the location and boundaries of the **offset properties** and be accompanied with the **offset** attributes and a **shapefile**.

3. To avoid and mitigate impacts to the **Carnaby's Black-Cockatoo** and the **Forest Red-tailed Black-Cockatoo** during the breeding season (July – November), within 7 days prior to **clearing**, the **approval holder** must investigate **potential breeding trees** within the **project area** to detect the presence of **Carnaby's Black-Cockatoos** or **Forest Red-tailed Black-Cockatoos** using hollows. The investigation must be undertaken by a **suitably qualified and experienced person**.

If a **Carnaby's Black-Cockatoo** or a **Forest Red-tailed Black-Cockatoo** is detected using a hollow in a tree or trees, the **approval holder** must:

- clearly identify the tree or trees with fencing and signage;
- not **clear** the tree or trees; and
- undertake measures to avoid the tree or trees from being cut down, felled, removed, killed, destroyed, poisoned, ring-barked, uprooted or burned

until the hollow/s are no longer being used by the **Carnaby's Black-Cockatoo** or the **Forest Red-tailed Black-Cockatoo** as determined by a **suitably qualified and experienced person**.

4. Within 30 days after the **commencement** of the action, the **approval holder** must advise the **Department** in writing of the actual date of **commencement**.
5. The **approval holder** must maintain accurate records substantiating all activities associated with or relevant to the conditions of approval, and make them available upon request to the **Department**. Such records may be subject to audit by the **Department** or an independent auditor in accordance with section 458 of the *Environment Protection and Biodiversity Conservations Act 1999*, or used to verify compliance with the conditions of approval. Summaries of audits will be posted on the **Department's** website. The results of audits may also be publicised through the general media.
6. Within three (3) months of every 12 month anniversary of the **commencement** of the **action**, the **approval holder** must publish a report on their website addressing compliance with each of the conditions of this approval over the previous 12 months. Documentary evidence providing proof of the date of publication must be provided to the **Department** at

the same time as the compliance report is published. The compliance reports must remain on the website for 12 months from the date of publishing. Potential or actual contraventions of the conditions of the approval must be reported to the **Department** in writing within two (2) business days of the **approval holder** becoming aware of the actual or potential contravention. All contraventions must also be included in the compliance reports.

7. Upon the direction of the **Minister**, the **approval holder** must ensure that an independent audit of compliance with the conditions of approval is conducted and a report submitted to the **Minister**. The independent auditor must be approved by the **Minister** prior to the commencement of the audit. Audit criteria must be agreed to by the **Minister** and the audit report must address the criteria to the satisfaction of the **Minister**.
8. If, at any time after five (5) years from the date of this approval, the **approval holder** has not **commenced the action**, then the **approval holder** must not **commence the action** without the written agreement of the **Minister**.

Definitions

approval holder - the person to whom the approval is granted, or to whom the approval is transferred under s145B of the *Environment Protection and Biodiversity Conservation Act 1999*.

Carnaby's Black-Cockatoo is the black cockatoo species *Calyptorhynchus latirostris*.

clear or clearing - the cutting down, felling, thinning, logging, removing, killing, destroying, poisoning, ring-barking, uprooting or burning of native vegetation.

commence, commenced or commencement - any preparatory works required to be undertaken including **clearing**, the erection of any fences, signage or on-site temporary structures and the use of construction or excavation equipment on-site for the purpose of breaking the ground for buildings, infrastructure or resource extraction.

Department - the Australian Government Department administering the *Environment Protection and Biodiversity Conservation Act 1999*.

DPAW - the Western Australian Department of Parks and Wildlife or the Western Australian Government department responsible for administering the *Conservation and Land Management Act 1984*.

foraging and potential breeding habitat - vegetation containing Jarrah (*Eucalyptus marginata*), Marri (*Corymbia calophylla*), Tuart (*E. gomphocephala*), *Banksia menziesii*, *B. attenuata*, *B. grandis*, *B. sessilis* and *Allocasuarina fraseriana*.

Forest Red-tailed Black-Cockatoo is the black cockatoo species *Calyptorhynchus banksii naso*.

Minister - the Minister administering the *Environment Protection and Biodiversity Conservation Act 1999* and includes a delegate of the Minister.

offset attributes - an excel file (.xls) capturing relevant attributes of the **offset properties**, including the *Environment Protection and Biodiversity Conservation Act 1999* reference ID number, the physical address of the offset site, coordinates of the boundary points in decimal degrees, the *Environment Protection and Biodiversity Conservation Act 1999* protected matters that the offset compensates for, any additional *Environment Protection and Biodiversity Conservation Act 1999* protected matters that are benefiting from the offset, and the size of the offset in hectares.

offset properties - an area approximately two hundred and ninety hectares (290 ha) in size, located at Lot 190 Clackline-Toodyay Road, Clackline, Western Australia and an area

approximately thirty-seven hectares (37 ha) in size, within Lot 1143, Wye Road, Nannup, Western Australia (identified as the Offset Area at Attachment B – attached to draft conditions of approval). These areas have been identified as environmental offset properties to be managed for conservation purposes by the **DPAW** on behalf of the **approval holder**.

potential breeding trees includes mature *Eucalyptus gomphocephala* (Tuart), *Eucalyptus marginata* (Jarrah) and *Corymbia calophylla* (Marri) trees with a hollow at least 20 cm in diameter and therefore large enough for a **Carnaby's Black-Cockatoo** (*Calyptorhynchus latirostris*) or a **Forest Red-tailed Black-Cockatoo** (*Calyptorhynchus banksii naso*) to nest in.

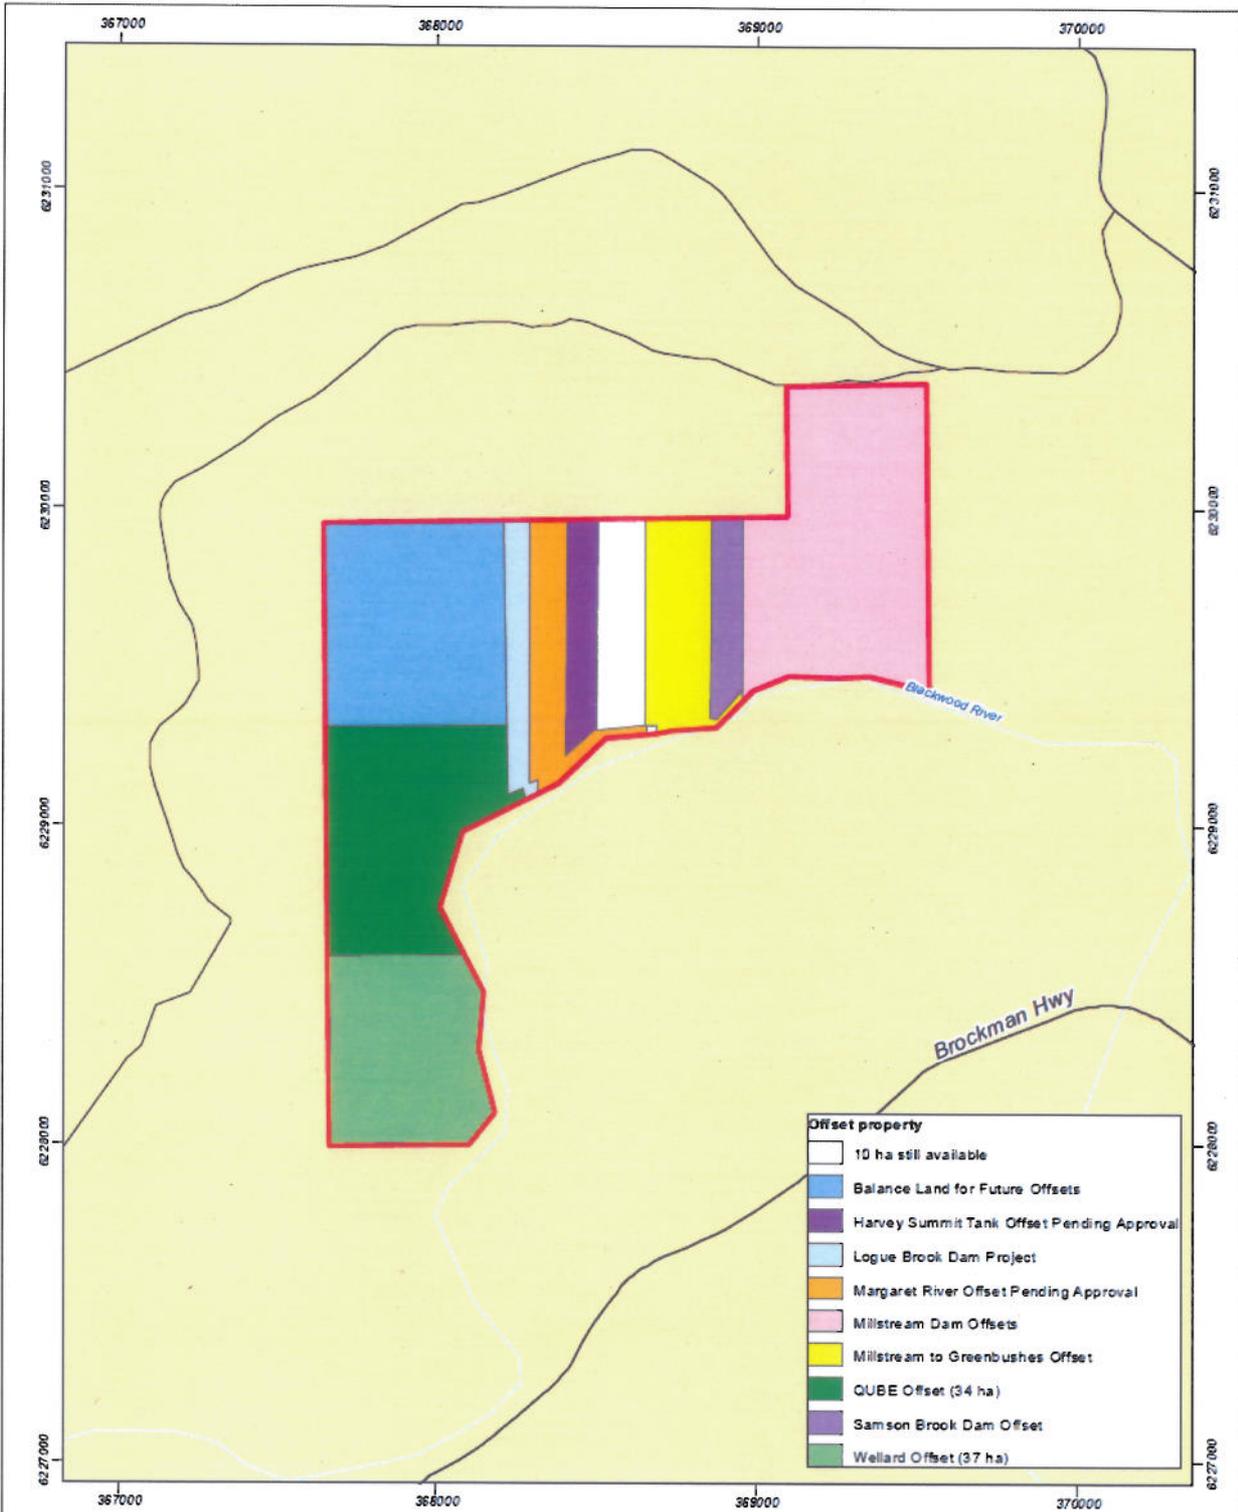

project area - the area at Lot 9035 and 9037, City of Kwinana, Western Australia, identified as 'Site Boundary' at Attachment A – attached to draft conditions of approval.

shapefile - an ESRI shapefile containing '.shp', '.shx' and '.dbf' files and other files capturing attributes of the offset area, including the shape, *Environment Protection and Biodiversity Conservation Act 1999* reference ID number and *Environment Protection and Biodiversity Conservation Act 1999* protected matters present at the relevant site. Attributes should also be captured in '.xls' format.

suitably qualified and experienced person - a person with relevant tertiary qualifications with experience surveying for black cockatoos.
