Where applicable, areas to be filled are shown as:

Depth of fill, in metres, shown as: $\text{+}[0.5]$

Finished surface design level, shown as: **60.0**

Retaining wall and retaining wall height, shown on the lower side of the wall, have been taken from plans supplied by Colliers and shown as:

Bin Pad Location shown as: $(1:2)$

ADDITIONAL NOTES:

The LOT dimensions and area shown hereon are subject to final field survey and also to the requirements of Council and any other authority which may have requirements under any relevant legislation

Final surface contours shown hereon have been supplied by Colliers.

Location of retaining walls are as shown on Engineering design drawings. Their as-constructed location may differ from their design location. Retaining wall heights have been supplied by Colliers. **The engineering detail shown hereon are preliminary only and are subject to change in final design and statutory approvals**

Compaction of any fill material placed on this site shall be completed to level one inspection and testing services in accordance with AS3798-2007.

Depth of fill values are calculated to the pre-development surface.

Drawing No 430109-DP-1622 Issue B

LEGEND

Final surface contours based on A.H.D. datum at an interval of 0.25m, shown as: 60.0

Where applicable, areas to be filled are shown as:

Depth of fill, in metres, shown as: ± 0.5

Finished surface design level, shown as: 60.0

Retaining wall and retaining wall height, shown on the lower side of the wall, have been taken from plans supplied by Colliers and shown as: (1:2)

Bin Pad Location shown as:

ADDITIONAL NOTES:

The LOT dimensions and area shown hereon are subject to final field survey and also to the requirements of Council and any other authority which may have requirements under any relevant legislation

Final surface contours shown hereon have been supplied by Colliers.

Location of retaining walls are as shown on Engineering design drawings. Their as-constructed location may differ from their design location. Retaining wall heights have been supplied by Colliers. **The engineering detail shown hereon are preliminary only and are subject to change in final design and statutory approvals**

Compaction of any fill material placed on this site shall be completed to level one inspection and testing services in accordance with AS3798-2007.

Depth of fill values are calculated to the pre-development surface.
