Notes:

1. Operating profit is a non-IFRS measure that is determined to present the ongoing activities of the Group in a way that reflects its operating performance. Operating profit includes the effects of non-cash movements in investments in associates and joint ventures. Operating profit excludes unrealised fair value gains/(losses) arising from the effect of revaluing assets and liabilities and adjustments for realised transactions outside the core ongoing business activities.
2. Pre write-downs and includes effects of non-cash movements in investments in associates and joint ventures
3. Return on Capital Employed (ROCE) = EBITDA (pre write-down) / (average net debt + average total equity)
4. Includes equivalent lots
5. (Total interest bearing liabilities (including land vendor liabilities) less cash) / (Total assets adjusted for market value of inventory less cash, less intangible assets). Excludes syndicates consolidated under AASB10

KEY HIGHLIGHTS FOR FY15

GROWTH AND POSITIONING

*Market overview &
outlook*

RESIDENTIAL MARKET OVERVIEW

Melbourne

- » Ongoing strong population growth to support dwelling demand
 - Metropolitan Melbourne will see an additional 1.8m people over the next 20 years, equals 90,000 new residents per year
 - Volumes expected to stabilise near current high levels
 - Available stock remains tight supporting moderate price growth

Perth

- » Subdued economic conditions are generally impacting the market
 - Demand for affordable product is being supported by policy incentives such as low interest rates and First Home Buyers' grants
 - Land market demand has reverted back to more average levels, with lower price markets performing better
 - Moderate decline in prices expected as production levels are adjusted to reflect current market conditions

Brisbane

- » Market demand continues to remain steady
 - Brisbane land market has not seen the same supply increases and as a result is seeing moderate price growth
 - Price growth continues to lag Vic & NSW to date
 - Increased demand via a recovery in interstate migration would see improved price growth

Sydney

- » Demand remains strong supported by pent-up demand and improved economy
 - NSW seeing lowest level of net interstate outflow migration since 1970s
 - Undersupply of dwellings relative to demand is expected to continue for some time yet
 - Price growth expected to moderate

OUTLOOK

Portfolio well positioned for sustainable long-term growth and value creation

- » Outlook supported by market fundamentals
 - Greatest near term exposure to well-performing Vic market
 - Qld contribution to increase due to Flagstone City commencing development during FY16
 - WA market conditions have moderated however lower priced lots still selling, majority of recently released and planned estates located in the affordable eastern corridor

- » Peet's key focus
 - Accelerating production where possible and active management of product mix
 - Delivery of affordable product targeted at the low and middle market segments, including an increasing focus on medium density
 - Actively managing landbank with a focus on increasing ROCE
 - Development spend to be self-funded through operating cash flows
 - Further improvement in EBITDA margins
 - Selective acquisition of projects to restock pipeline, predominantly through funds platform

- » Well positioned to deliver more than 3,500 settlements in FY16 and target earnings growth
 - FY16 earnings expected to be skewed to the second half
