

## **FLAGSTONE RESIDENT | KAREN STANTON**

“Living in Flagstone is great! There are so many parks and everything I need is right here at my front door,” shared Karen Stanton.

Back in 2016, Karen and her husband Rick decided to enter the property market following the government’s announcement of the \$20k first home owners grant.

“We were living on the North Side at Deception Bay, while I stayed home to care for our daughter Natalie, my husband travelled almost an hour South for work.

“Knowing we wanted to move closer to Rick’s job, we did our research and discovered an up-and-coming place called Flagstone.”

After making the drive south, Karen and Rick immediately saw the size of land they wanted, signed their contract before moving into their newly built home in February 2018.

“Since our first introduction to Flagstone in 2016, we’ve had the pleasure of watching the community grow.

“It’s fantastic to have Coles and Woolworths, a variety of restaurant and takeaway options, a short walk to the primary school, great coffee, medical centres and gyms.”

Karen believes it’s easy to live a balanced life at Flagstone.

“We use the parks often, especially the Pirate Park, Adventure Park and the footy fields – we are always creating fun memories as a family.

“By far, the highlight of living in Flagstone is our community spirit. We celebrate Christmas, Halloween, New Year and everything in between in style. Likewise, when you walk outside, you know you’ll get a warm smile and hello.

“I like the sense of community here, and it’s nice to feel a part of something. I don’t think I have ever lived anywhere like Flagstone before.”
