## MEL'S TOP PICKS

WITH INTERIOR TRENDS FROM POTTERY BARN THAT REFLECT THE BURNS BEACH LIFESTYLE

### FLOORING

Light coloured pale oak, or white washed timber floors, give a warm and inviting feel and look beautiful, accompanied by natural-coloured, textured rugs. Seagrass or a sisal type carpet is perfect in this type of setting.

**2 Indio Occasional Chair**  
Rustic looks balanced with a chic slatted design. Built on a smaller scale to fit townhouse patio or apartment balcony.

### PAINT COLOURS

The use of whites and off whites on the walls gives a sense of lightness to the home. Introduce pops of colour through your soft furnishings, artwork and accessories. Corals, charcoals, greys and greens are also beautiful coastal colours, or even yellow, if you want a really bright and fun coastal scheme.

**1 Benchwright Extending Dining Table**  
A seadrift finish, with a rustic, industrial design

**3 Fan Coral Applique Cushion Cover**  
Hand-embroidered cushion cover lends a fiery note to the usual neutral tones of coastal decor.

**4 Border Round Jute Rug**  
183cm Round and handmade by artisan rug makers.

### ACCESSORIES

Beach and coastal homes usually have a beautiful collection of trinkets, accessories and pieces of furniture that have been collected over many years and generations. Pieces of coral (only from ethically sourced suppliers), coloured bottles, wicker baskets, hurricane lamps, or even something simple like a sculptural piece of driftwood are the perfect accessory.

## MACA-MACADAMIA CHOCOLATE BARK

### YOU WILL NEED

- 1 vanilla bean pod
- 155 g (1 cup) macadamia nuts
- 1/2 cup coconut oil
- 125 g (1/2 cup) coconut cream
- 1/4 cup raw cacao powder
- 9 teaspoons dried maca root powder
- 9 teaspoons (45 millilitres) rice malt syrup
- Pinch of sea salt
- 1/4 teaspoon dried chilli powder
- 1/4 cup shredded coconut

### HOW TO

- STEP 1** Slice the vanilla pod lengthways, then scrape out the seeds using the back of a knife. Discard the pod and keep the seeds.
- STEP 2** Roughly chop the macadamias in half, and place to one side for later.
- STEP 3** Melt the coconut oil in a large mixing bowl over a water bath.
- STEP 4** Remove bowl from heat and stir through the coconut cream, cacao, vanilla seeds, maca, rice malt syrup, sea salt and chilli powder. Whisk until smooth.
- STEP 5** Add half the macadamias and half the coconut. Stir through with a wooden spoon or spatula.
- STEP 6** Line a baking tray with baking paper, then spread the mixture over evenly.
- STEP 7** Top with the remaining macadamias and coconut.
- STEP 8** Refrigerate until set, then break into twelve pieces roughly the same size. To store, layer the pieces in an airtight container, separated by baking paper. Keep refrigerated or – if like me you prefer it with a little more snap to it – in the freezer.
